SAFETY GRIPSOCKS EVOLUTION

art. dal 68055 al 68059

• Dispositivo antipattinamento in tessuto tecnico per auto e veicoli commerciali. La calza da neve con i nuovi inserti in poliuretano che permettono una maggiore adattabilità e aderenza a neve e ghiaccio. Dispositivo già a norma per la futura omologazione come dispositivo paritario alla catena metallica. Superati positivamente i rigorosi test della normativa austriaca ÖNORM V5121.

• Antiskidding device in special technical fabric for cars and vans. The snow wheel cover with 3 inserts in polyurethane that give more adaptability and grip on snow and ice. This device already conforms to future homologation as equal device as steel snow chain. Successfully tested and approved according to strict austrian ÖNORM V5121.
